

Instructions for Poster Presentations

Poster Instructions Posters should be prepared in landscape format with a maximum width of 110 cm and maximum height of 90 cm.

The day of your poster presentation along with your poster number is listed in the online program (<https://virtual-rehab.org/2019/program/>).

You are asked to set up your poster in the designated area at the conference hall, from the morning starting at 8.00 on the day of your poster. Poster stands, exhibition booths and coffee tables will be interspersed with each other. Materials to hang the poster will be provided.

Author Availability Authors should be present near their posters on the day of their poster presentation during the designated time (see online program). The Best Poster and Best Student Poster evaluators will be visiting all posters at that time.

Fast-forward Session All poster presenters will participate in a Fast-forward (FF) session, which will be held on the day of your poster presentation. In this session, you will have *one* minute to entice the participants to visit your poster. Please submit a single 4:3 slide by email to ICVRposter@gmail.com by July 15, 2019.

Please contact Einat Bar-Ilan - einat@hs-events.co.il if you have any questions concerning your poster.
